

# Biosimilars

As biosimilar approvals increase in 2025, we want to help shed some light on popular biologics and biosimilars utilized for HLN patients and their potential coverage or patient savings. Although information on preferred coverages may change throughout the year, including when new products become available, here's a quick reference and some information to familiarize yourself with regarding current cost-effective therapies.

**KEY:** *t* - An interchangeable product can be substituted for the reference product without the intervention of the prescribing health care provider. <https://purplebooksearch.fda.gov/>, Accessed 7/15/25 by S.Tripode

\*AG – Authorized generic, same product as the brand-name drug without the brand name on the label, can be auto substituted by the pharmacist in most states

**Pricing** – HLN claims average per Rx or AWP as reported by Medi-Span (specifically Actemra, Remicade, & Rituxan)
